

# Construction Update

**Wastewater**  
Pipe Replacement Update

AUGUST 2020

CHARLOTTE  
**W****TER**

## Irwin Creek Tributary Phase 2

### *Yeoman Road to Dewitt Lane*

Construction is underway for a wastewater replacement project in the Clanton Park/Roseland and York Road neighborhoods that will expand the future capacity of the wastewater system in your area. Contractors for Charlotte began this work this summer and expect pipe installation in the immediate area to take six to eight months.

As part of this work, Bowman Road residents may have noticed construction activity and increased construction traffic on the road, as crews access the work area at the designated entry point located at end of the cul-de-sac. As needed, crews may use a tire washing station to limit the amount of dirt and debris on the roadways.

To help secure the construction area, 6-foot fences have been placed area active work zones, for the protection of both crew members and residents. Please remember that this is an active construction site and pedestrians are not allowed to enter. Parents, please make sure your children are aware of the hazards and know to stay clear of the area. Charlotte Water thanks you and your neighbors for patience and understanding during this important project.

For more information on this project, please visit the project website at [www.charlottewater.org](http://www.charlottewater.org) (click on "projects") or contact Charlotte Water project manager Will Rice, 704-578-9734 or [wrice@charlottenc.gov](mailto:wrice@charlottenc.gov).
